Writing Spot: Dealing With Alcohol Addiction

Learning Outcome

Describe the reasons or results of events or actions in spoken or written texts, in work and social contexts.

Can Do Statements

- I can write a cause and effect paragraph.
- I can write about health and wellness.
- I can write about the reason of an action or an event.

Ask your partner:

- Do you know anyone who is battling an addiction? What kind? Food? Alcohol? Drugs? Cigarettes?
- What are some of the challenges when dealing with someone with an addiction?

Let's Explore!

Dealing with a family member or loved-one who is **battling*** an addiction can be difficult for everyone involved.

* "To battle" means to struggle to succeed or survive during a difficult situation.

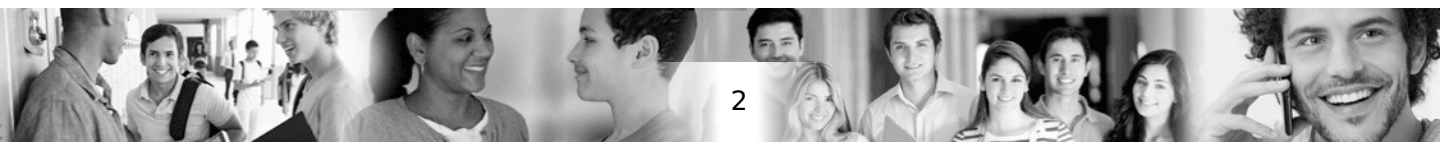

Instructions: Read the text aloud.

Alcoholism is a disease that is characterized by the sufferer having a pattern of drinking that affects their life. Drinking excessively can result in a number of negative consequences, including the deterioration of one's health and the destruction of family connections and external relationships. First, drinking can have a significant impact on your body and can lead to severe illness. Signs of intoxication include the smell of alcohol, glazed or bloodshot eyes, and the deterioration in the person's appearance or hygiene.

Some health consequences include kidney failure, liver disease and in some cases death. Since the disease affects a person's entire system, children can be born with major health complications or in some cases, be stillborn. Alcohol can also have a very serious affect on a person's temperament. Drinking has negative side effects on self-esteem and rational thinking. As a result, people become more self-centered, develop low self-esteem, doing things or behaving in ways that are uncommon for them. Therefore, they have little or no regard to the outcomes of what is said or done during these periods. Oftentimes, they are unaware of their impact on others because of the disease's effect on memory.

Sufferers are unable to maintain healthy relationships because they are unable to control their addiction. Consequently, relationships can be destroyed through arguments and violent outbursts leading to spousal and child abuse. Relationships outside the family can be destroyed because of foolish arguments, inappropriate behavior and unreliability. Overall, alcoholism affects all facets of a person's life, and can seriously jeopardize their health, relationships and future. They require intervention and tailored programs in order to deal with their addiction and successfully reintegrate themselves back into their communities.

Let's Practice!

Let's talk about health and wellness.

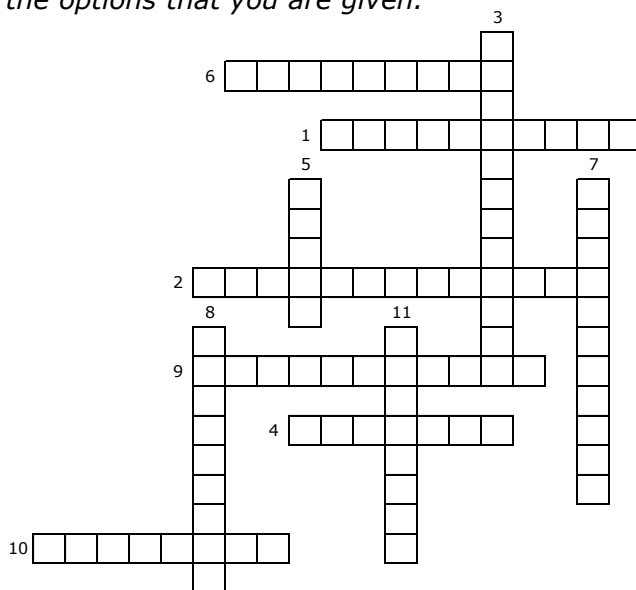

Instructions: Complete the crossword with the options that you are given.

Down

3. The condition of being drunk
5. Something that's unspoken; implicit
7. Integrate again
8. Dead at birth
11. Thinking in a logical way

Across

1. Alcohol addiction
2. Slow damage to something
4. State of keeping the body clean
6. Strong uncontrolled desire for something
9. Someone's attitude triggered by peculiarities of feelings or actions
10. A person afflicted by an illness.

Let's Practice!

Alcoholism affects every aspect of a person's life.

Instructions: Organize the mystery sentence. Write each word in the correct order. Read the sentences aloud. Check your pronunciation with your instructor.

1. effect on / they are / on others / memory. / their impact / Oftentimes, / the diseases' / because of / unaware of

2. relationships because / addiction. / maintain healthy / they are / Sufferers are / unable to / control their / unable to

3. because of / can be / destroyed / Relationships outside / foolish arguments. / the family

Extension Activity

It's time to look for some ways to improve your health and wellness.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Go online and research different ways to increase your quality of life.
- Choose one and write notes on the benefits of this activity.
- Write a 150-170 word cause and effect paragraph about the activity.
- Explain what happens if you add this activity to your lifestyle. i.e. cause and effect.
- Use words such as *consequently*, *as a result*, *therefore* and *due to*.
- Proofread your paragraph.
- When completed, read your paragraph aloud to a partner.

Self-Assessment

Yes

No

I go online and research different health and wellness issues.

☐ ☐

I write notes on an activity to improve my health and wellness.

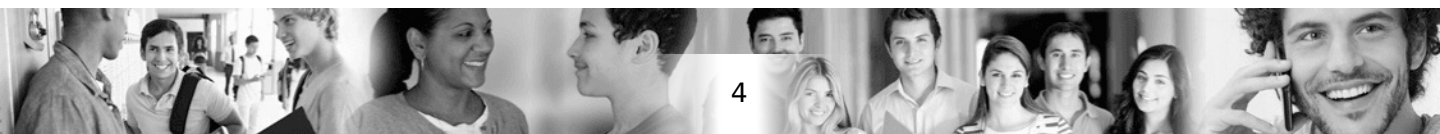

☐ ☐

I use cause and effect in paragraphs.

☐ ☐

Target Words

- to characterize** (verb): to describe the character or special qualities of someone or something
e.g. Alcoholism is a disease that is characterized by the sufferer having a pattern of drinking that affects their life.
- intoxication** (noun): the state of being drunk
e.g. Signs of intoxication include the smell of alcohol, glazed or bloodshot eyes, and the deterioration in the person's appearance.
- hygiene** (noun): the things that you do to keep yourself and your surroundings clean in order to maintain good health
e.g. Alcoholics can have poor hygiene.
- stillborn** (adjective): dead at birth
e.g. Since the disease affects a person's entire system, children can be born with major health complications or in some cases, be stillborn.
- rational** (adjective): based on facts or reason and not on emotions or feelings
e.g. Drinking has negative effects on self-esteem and rational thinking.
- alcoholism** (noun): a medical condition in which someone frequently drinks too much alcohol and becomes unable to live a normal and healthy life
e.g. Alcoholism is a disease that is characterized by the sufferer having a pattern of drinking that affects their life.
- to reintegrate** (verb): to make part of a larger group again
e.g. They require intervention and tailored programs in order to deal with their addiction and successfully reintegrate themselves back into their communities.
- facet** (noun): aspect or phase
e.g. Overall, alcoholism affects all facets of a person's life and can seriously jeopardize their health, relationships and future.

Learning Points

The Cause and Effect Paragraph

Cause and effect sentences are statements that explain the reasons for something and the results of a situation. You use words like *since*, *because*, *therefore* or *consequently* to organize your sentences in a cause and effect paragraph.

Cause and effect paragraphs generally follow a typical paragraph format. They are introduced by a **topic sentence** stating the general idea of the paragraph. They are then followed by sentences giving **specific supporting details**.

For example, if the topic sentence introduces an **effect**, the supporting sentences will describe its **causes**.

Example:

Factory jobs attracted more people (cause), as a result, cities have grown very large (effect). Better schools were built in the area (cause), consequently, it attracted more families (effect).

You organize your cause and effect paragraph with words like *since*, *because*, *consequently*, *as a result of*, *therefore*, *due to/because* + noun.

Example:

*Cities have grown very large **as a result of** an increased effort to make downtown safer and more affordable. **Due to** the concentration of factory jobs, more people have been coming back to the city center.*

Read the following examples from the text:

Examples:

- *Consequently, relationships can be destroyed through arguments and violent outbursts leading to spousal and child abuse.*
- *As a result, people become more self-centered, develop low self-esteem, doing things or behaving in ways that they would not normally.*
- *Therefore, they have little or no regard to the outcomes of what is said or done during these periods.*
- *Due to memory problems, alcoholics may not recognize the pain they are causing their families.*

Learning Points

Writing Tip: The Reason Clause

You use reason clauses to express the reasons for an action, or why a situation is the way it is.

You use words like *because of*, *due to*, and *owing to* to introduce a noun phrase to give a reason for something.

Reason clauses are subordinate to the main clause. They state the reason why things are done, or what makes a situation the way it is.

You can use the following words to write reason clauses:

- because

You use *because* to explain the reason why something is the way it is.

- since/as

You use *since* or *as* to introduce a reason that is already known.

- because of / on account of

You use *because of* or *on account of* with a noun phrase to talk about the reason behind an action or a situation.

Read the following examples from the text:

Examples:

- *Oftentimes, they are unaware of their impact on others because of the disease's effect on memory.*
- *Sufferers are unable to maintain healthy relationships because they are unable to control their addiction.*
- *Relationships outside the family can be destroyed because of foolish arguments, inappropriate behavior and unreliability.*
- *Since the disease affects a person's entire system, children can be born with major health complications or in some cases, be stillborn.*
